Three Brothers Guest House — How to Use

App for tracking rooms, income, expenses, the restaurant, and staff · Morogoro

Welcome! This is a small app on your phone that helps you keep track of everything at the guest house — no internet needed, no monthly costs. Follow these steps to get started.

1) Installing on Your Phone

1. Open the link you were sent, using **Chrome**
2. Tap the three dots (⋮) at the top right
3. Choose **“Install app”** or **“Add to Home Screen”**
4. The app icon will appear on your phone like any other app

Once installed, the app works fully **without internet** — except the very first time you use “Scan Receipt”.

2) Bottom Menu

Home— today's summary
Rooms— 11 rooms + staff room, status
Bookings— guests, check-in/out
Restaurant— menu and orders
Money— income and expenses
Inventory— stock counts
Staff— salaries, emergencies
Reports— day/week/month
Scan Receipt— camera capture
Calculator— bottom right, any time

⊘ Restaurant: No Alcohol on the menu

3) Daily Routine

- **Morning:** check “Rooms” — update status (vacant/occupied/cleaning)
- **Guest arrives:** open “Bookings” → add a new booking
- **You buy something:** go to “Scan Receipt” → photograph the receipt → confirm the amount
- **Restaurant gets an order:** “Restaurant” → add the order, it's added to income automatically
- **You give a staff member emergency/transport/food money:** “Staff” → select their name → “Advance/Emergency”
- **Evening:** check “Home” to see the day's totals

4) Backing Up Your Data

1. Go to “Settings” (under “More”)
2. Tap **“Download Backup (JSON)”**
3. Send that file to your child on WhatsApp once a week

This matters — all data lives on your phone only. A weekly backup means nothing is lost if the phone is lost or damaged.

5) Support

Have a problem or question? Call or message your child, who manages this system.
